Baystate Department of Obstetrics and Gynecology
OBGYN 55th Reunion
Times They Are A Changin

Springfield Marriott
2 Boland Way
Springfield, MA

October 21 – 23, 2016
learn.baystatehealth.org

Why Attend?
Clinicians require regular and current updates to provide quality care to patients. This continuing education course will provide up-to-date research across all the areas of care in Obstetrics and Gynecology: general care, education, maternal fetal medicine, female pelvic floor and reconstructive surgery, reproductive endocrinology and infertility, minimally invasive surgery, and family planning. Speakers will come from across the United States to discuss current trends in OB/GYN as well as new approaches to “old problems”. The course will have adequate breadth across the specialty to engage participants.

Registration & Tuition Information:
You can register online or by mail.
Credit card on website: Go to learn.bhs.org. Click on calendar. Search or navigate to the course. Click on the course you want. Go to shopping cart, then Checkout. Sign in with your CE Portal ID or create an account. Add Credit Card Information. You will receive a confirmation email. OBGYN 55th Reunion

Times They Are A Changin

Springfield Marriott
2 Boland Way
Springfield, MA

October 21 – 23, 2016
learn.baystatehealth.org

Audience:
A course designed for ObGyn physicians, nurse midwives, nurse practitioners, & nurses

Objectives:
After participating in this educational activity, attendees should be able to:
- Describe current trends in graduate medical education and its impact on the next generation of physicians.
- Explain how simulation may be used to acquire new skills and demonstrate competence in current skills.
- Analyze current data related to surgical resection of endometriosis as a cause of pelvic pain.
- Describe current best practice for surgical and medical options for treatment of pelvic pain.
- Explain Use of physical therapy to treat pelvic pain.
- Compare current recommendations, risks, and complications of vaginal hysterectomy with other surgical modalities.
- Describe the relationship of PCOS, obesity and infertility.
- Examine the benefits of a multi-disciplinary patient centered care model for improving outcomes.
- Review current approach to the care of persons with PCOS, obesity and infertility.
- Describe the risks and ethical considerations in pre-implantation genetic screening.
- Describe the clinical indications for current pre-implantation genetic screening options.
- Compare the patient characteristics which impact likely vaginal birth after cesarean section.
- Describe the risks of a trial of labor after cesarean section.
- Examine how the provider’s experience might affect counseling of women considering trial of labor after cesarean section.
- Describe how birth control options counseling might be interpreted.
- Enumerate the indications for and challenges with routine cervical lengths in pregnancy.
- Identify indications for testing the pregnant woman with a BMI >30.
- Describe the key social determinants that impact women’s health.
- Compare and contrast culture competency verses structural competency.
- List strategies that OB-GYN’s can use to decrease health care disparities.
