Baystate Health
Baystate Health Continuing Interprofessional Education

October 1, 2016
7:30 am - 4:00 pm
http://learn.bhs.org

Audience: This course is designed for nurses. Pharmacology contact hours for nurses

Goal: The goal of this educational activity is to support safe, effective, patient-centered, timely, efficient, equitable, and compassionate care.

Learner Objectives: After participating in this educational activity, attendees should be able to:

• Describe the sensory, emotional, behavioral, spiritual, and cognitive components and characteristics of different types of pain
• Identify evidence-based pain assessment strategies for individual patients
• Discuss the principles of analgesic use including indications, contraindications, side effects and dose Titrations
• Describe non-pharmacologic interventions for the relief of pain
• Discuss multi-modal approaches and strategies for managing acute pain
• Discuss the principles of palliative care
• Discuss strategies to care for individuals with pain and a current or past history of substance use disorder
• Identify barriers to managing pain in people with substance use disorders
• Describe the clinical, educational and institutional responsibilities of the Pain Resource Nurse
